Mitch Bilensky

Summary

General tech enthusiast with an interest in cloud development and architecture, DevOps, and home automation. Has been working as a full stack developer for the past 6 years mostly within Java (Spring) and JS (React and Angular), with a recent focus on the cloud. Apart from that I'm generally found golfing, walking the local trails , or sitting on the patio of a craft brewery enjoying a drink.

Skills, Languages and Frameworks

Java	Spring (MVC, Boot, Data, etc.), JPA, Flowable (Workflow Engine)
JavaScript	React, Angular, TypeScript
AWS	CloudFormation, S3, CloudFront, DynamoDB, Cognito, IAM
DevOps	Jenkins, GitHub Actions, GitLab CI
Tools	Git, IntelliJ, Eclipse/STS, VS Code
Infrastructure as Code	AWS CloudFormation & SAM, Terraform, Ansible

Experience

Software Developer/Consultant - 04/2015 to Present

Accreon, Fredericton

- Work within a scrum team in a leadership role to plan, architect, execute, and maintain projects
- Work directly with clients to gather requirements and plan and solutions
- Work with, guide, and provide feedback for juniors on the team

Education

Information Technology: Programmer Analyst - 2015

New Brunswick Community College, Fredericton NB
